NOTICE.

New Iberia, La., May 7, 1902.
To whom it may concern—
Anything I should have said derogatory to the character or mechanical capacities of Joseph Boute, is hereby withdrawn and the undersigned apologizes for same.
Leon Dreyfus.

On Tuesday afternoon a good shower fell in this vicinity, laying the dust and doing much good. The drought which has prevailed for the past three weeks has caused a scarcity of cistern water.

JEWELS.

Every mother that has a child has a jewel more precious to her and worth more than the King of England's entire collection of diamonds, etc. Pity the little one that is rapidly losing its health because its mother does not know it has worms, and that a 25 cent bottle of Mother's Worm Syrup will expel them quickly.

Old Grandmas German Tea
The best remedy in the world for putting the blood into the system and the Health.

Sold by all DRUGGISTS, PRICE 10cts PER BOX.

The Best Tonic.

The best time to cure a cough on cold is when you are first affected. A pleasant and sure remedy for sore throat, weak lungs, bronchial asthma, coughing spells, etc., is Czech's Mexican Syrup for coughs and consumption. Be wise in time and keep a bottle in your medicine chest, always handy for immediate use, remembering the old adage, "a stitch in time saves nine." It is a true lung tonic and sells for only 25 cents.

The Department of Agriculture has imported ladybugs from China to destroy the San Jose scale.

WANTED.

Teams of drivers to haul salt from Salt Mines to Cypresson. Apply to Mr. J. Salt Co., Weeks Island La.

FRESH FLOWER SEED.

For sale at Millard's News Depot, New Crop for 1902 just received.

BETTER CUT THAN OUT.

Every mother should be quite apprehensive of worms when her children act as if they were going to starve. Worms are known to be the first cause of much ill health. Young and old very soon suffer from worms when a month or two after the weaning age. Remington's Worm Syrup, yet always effective, remedy for worms, a 25 cent bottle of Mother's Worm Syrup—10cts.

Many Wonder.

Many wonder how it is that pin worms and stomach worms get into little children, or how a tape worm, 300 feet long, can get in and exist and grow inside of a man, as it sometimes happens. They may well wonder, for it is a great mystery. However, many now know from experience that Mother's Worm Syrup will rid one of intestinal worms and greatly improve the health after the worms have been destroyed and expelled. It is absolutely a harmless remedy to take, and it only costs 25 cents, all should try it who suspect worms to be the cause of their ill health.

A Gas Well.

The gas well in the parish of St. Martins, near St. Martinville, on the rice farm of Mr. L. N. Satterfield of this place, has attracted considerable interest here. Mr. Satterfield and Mr. Boute gave our representative the following facts.

The farm contains about 500 acres. Mr. Jos. Boute of New Iberia was contracted with for the wells necessary to irrigate this land, which has been planted in rice. During the progress of the boring of the first well Mr. Boute several times called attention of the proprietors to the accumulating scum on the surface of the water in the setting pit, where the water is allowed to rest and precipitate the sand before being reused. He said he felt confident that it indicated this. This well was finally rested in a water bearing stratum at a depth of 200 feet.

A second well was then bored. In this the oil indications were more marked than in the former and the presence of gas was very manifest by the continuous bubbling of the water in the pipe when at rest. When this well had reached a depth of 170 feet, having penetrated a good bed of water bearing sand it was rested. As it was desired to locate the pump on this well below the surface in order to minimize the lift of the pump it became necessary to take off the last section of the pipe at the first coupling below the surface. In order to hold the water of the well back out of the pit that was dug a piston was inserted in the well casing. The piston head had a hole bored through its center, into which was screwed a piece of small diameter gas pipe. This pipe filled the two-fold purpose of providing the means of forcing the piston downwards and providing a vent for relieving the pressure below the piston.

After the piston had been forced down to the required depth, a match was ignited in close proximity to the upper end of the gas pipe, when, with a flash, the gas ignited and burned with a steady flame above the end of the pipe. It was allowed to burn all Saturday night and continued to burn uninterruptedly all day Sunday and Monday, attracting much attention and many visitors.

Wednesday the pump for this well was ready made and placed in position. When all was ready power was cut on and it threw a great stream of water from a six inch discharge. Some one who had noted the gas phenomenon of the well and wishing to further examine it applied a lighted match to the end of the gas pipe. A heavy dull explosion followed that caused nearly wrecking the pump. It was with some difficulty that the ensuing flames were extinguished.

Mr. Satterfield has been offered \$25,000 for the tract of land.

SPRING ALMENENTS.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind need toning up. The trouble is that during winter, there has been an accumulation of waste matter in the system. Herbs will remove it, secure to the rectal organs a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50¢ at Estorge Drug Co.

Dr. Palmer Seriously Hurt.

The Rev. Dr. B. Palmer, Pastor of the First Presbyterian Church New Orleans, was run down by an electric car about noon last Monday. The accident occurred at St. Charles and Henry Clay Avenues. The Ambulance was called, but before it reached the scene Drs. Fortier and Armstrong arrived. And the injured Davis was removed to him nearby.

Dr. Palmer had one leg broken and was otherwise injured. It is reported that he is internally hurt. Dr. Palmer is 83 years of age, and is recognized as the leading physician of the south.

The motorman in charge of the car which ran over Dr. Palmer is George Vincent and the conductor's name is John Coffey. The number of the car is 811.

Dont forget Jennie Holman's play of Fanchon the cricket at Opera House May 16. Price 50c. No extra charge for reserved seats.

Douglasville is establishing a new mosa collar factory.

The St. Mary Dredging Co. now has a gasoline tug in the Franklin canal, which runs from the head of the canal being cut by the dredging company around through Bartholemew, Portage and the Franklin canal as far up as the S. P. water-tanks, where the oil is taken from the tank cars and placed into barges, and which will be used by the dredge and pull boats as fuel. —Vindicator News of Franklin.

The Jennings Heywood Oil Company sent a crew and description may be obtained from the company.

World Wide Reputation.

Watta's Cream Vernafume has achieved a world wide reputation as being the best of all worm destroyers, and for its tonic influence on weak and anæmic children, as it neutralizes the acidity or sources of the abdomen, improves their digestion, assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirit natural to childhood. 25¢ at Estorge Drug Co.

Messrs Homer Caldwell and George Sheard have formed a copartnership under the style and title of Caldwell & Sheard. They are erecting a large building on the Caldwells property, just back of the old shop on Main street, and will fit it up and equip it as an up-to-date machine shop. They have already received a consignment of machines and tools, which are being put together and made ready for service. The power for the plant will be supplied by a 25 H. P. boiler and engine. They will use fuel oil under the boiler. Both these young gentlemen are experts in their lines, with well established reputation for being both capable and thorough. Their enterprise deserves a large measure of success which the Iberian is sure will be with them.

WANTED.

We would like to ask, through the columns of your paper, if there is any person who has used Crean's August Flower for the cure of Indigestion, Dyspepsia, and Liver Troubles that has not been cured—

and we also need their results,

as soon as possible.

These results will be published in the minutes of the adjourned meeting of the executive committee of said Association, declaring it to be the sense of said committee to oppose any plan proposed to change the present judiciary system.

The drama of Fanchon, the Cricket will be produced at the Opera House on May 16th, by some of New Iberia's best talent, under the personal direction of Miss Jennie Holman, is too well known to require much description.

The scene of the play is laid in France, the play abounds in humor and pathos. Miss Holman

who plays the part of Fanchon, is well known here, and assures us that all the characters have been placed in competent hands and a fine performance will be given.

The play is under the auspices of the Ladies Guild of the Episcopal Church. The popular price of 50cts will be charged all over the house; reserved seats can be secured for an extra charge at Estorge's Drug Store.

WANTED.

and we also need their results,

as soon as possible.

These results will be published in the minutes of the adjourned meeting of the executive committee of said Association, declaring it to be the sense of said committee to oppose any plan proposed to change the present judiciary system.

On motion of Hon. Walter J. Burke, a committee of three members of this bar were appointed, composed of Messrs. L. D. Dunbar, E. T. Weeks and L. O. Hacker, to draft resolutions expressing the views of this bar concerning the said proposed amendments.

After a lengthy discussion of the present judiciary system, the following resolutions were unanimously adopted:

Be it Resolved: that the members of the bar of Iberia parish dissent from the opinion and conclusions advocated by the executive committee of the Louisiana Bar Association, as expressed in the minutes of the adjourned meeting above mentioned; and that they strongly urge the absolute necessity of a change in the present judiciary system, in so far as it affects the present organization of circuit courts in the country parishes, and we in all civilized countries, and we wish to correspond with you and your friends on this subject.

If you never tried August Flower, try one bottle first. We have never heard of its failing.

If so, something more serious is the matter with you. Ask your oldest druggist.

G. G. Green, Woodbury, N. J.

Highbinders have kidnapped the imported bride-elect of a New York Celestial merchant, and the

31, 1902, the State of Louisiana sold 470,634 acres of the public domain for \$103,167.

The rail cost the Chinaman \$800.

"One reason why there is so much unrest among the working classes," says Prof. C. E. Vawter of the Mitter School, "is that our public education does not enable them to help themselves to make their work successful and happy."

Senator McEnery has introduced an amendment to the public buildings and grounds bill providing an additional \$1,240,000 for the

construction of the new State

Capitol, and the new circuit

and district courts.

He is further resolved that the

people to educate the children of the state," says Prof. C. E. Vawter of the Mitter School, "then we surely should use the money in that way which will give the state the results. It should educate our children toward what they have to do in life, not away from it. There is no denying the fact that our present schoolastic education tends to draw our children away from industrial pursuits.

Say, the State of Louisiana, and to our senators and representatives representing our districts and parishes.

The meeting then adjourned sine die.
